

milaidhoo island
MALDIVES

story of a small island

Mohamed Thasleem
Managing Director

Dear Valuable Partners,

Let us introduce our company Exciting Travel Holidays Pvt. Ltd. and tell you why we are the best Maldives destination partner for you.

A Maldivian holiday offers a Once in a lifetime experience!

The Maldives consists of a collection of over 1190 islands on the Indian Ocean, south of Sri Lanka. As the waters around the islands are shallow this helps the coral reef flourish, attracting an abundance of exotic marine animals from all over the world such as Whale Sharks, Manta Rays, Tortoises and much more.

The Maldives is one of the most the most Luxurious and Romantic destinations in the world, offering peace and tranquility hidden in pristine tropical nature with lush vegetation. With a range of airlines now flying to the Maldives, thus improving accessibility, it is no surprise that Maldives has become one of the most desired holiday destinations in the world.

Exciting Travel Holidays, has a multilingual young group of professionals, who are well experienced and who provides a full comprehensive service to our customers and partner tour operators, starting from accommodation, tours, airport handling and 24 hour customer support and service.

We take great pride in our team and feel confident in the quality of services that we are able to offer due to their expertise.

Our range of luxury resorts are intended to make your holiday an “exciting” and unforgettable one!

Government Working hours: 8:00 am to 3:00 pm Sunday to Thursday

Bank hours: 9:00am to 01:30 pm Sunday to Thursdays

LOCATION & GEOGRAPHY

The Islands of Maldives lies in the heart of the Indian Ocean, just across the equator. The country is made up of 1,190 coral islands formed around a chain of 26 natural ring-like atolls which spread over 90,000 sq. kilometers. These atolls structures are formed upon a sharp ridge rising from the ocean, making way for their secluded uniqueness.

Each atoll in the Maldives is made of a coral reef encircling a lagoon, with deep channels dividing the reef ring. A string of islands take their places among this atoll ring; each island has its own mesmerizing reef encircling the island lagoon. The reefs of the islands is a home to countless types of underwater creatures and vibrant corals and protect the islands from wind and wave action of the surrounding vast oceans. This unique structure of reefs and channels makes navigation almost impossible for the passer-by without sufficient information about these waters.

Ninety-nine percent of the Maldives is made up of sea. The people of the islands are widely dispersed across the atolls, over 188 islands. Over 150 island resorts have been developed since 1972 and the rest of the islands are uninhabited or used for agriculture and other livelihood purposes.

WEATHER & CLIMATE

The weather in the Maldives is usually picture perfect: sunlit days, breezy nights, balmy mornings, and iridescent sunsets. The temperature hardly ever changes - which makes packing for your holiday an easy task (see what to pack). With the average temperature at about 30 degrees Celsius throughout the year, the sun is a constant on most days, shining through treetops, creating lacy patterns on your feet, embracing you with its warmth. Throughout the day, the sun will make itself known, ensuring that it will be remembered and missed, like an old friend, as you pack up your suitcases to leave.

Maldives has two distinct seasons; dry season (northeast monsoon) and wet season (southwest monsoon), with the former extending from January to March and the latter from mid-May to November.

The rare thunderstorm in the Maldives (especially around the southwest monsoon months) can be a welcome respite from the sun. Cloudy skies and slate grey seas, and crashing thunder makes up for lovely reading weather. The warm temperatures will allow you to go for a walk in the rain, a verdant, wet, thoroughly enjoyable experience. For extra exhilaration, take a swim in the rain - the sea will be extra warm.

DIVING IN MALDIVES

The warm seas of Maldives have high visibility throughout the year, with water clear enough to see the passing fish as far as 50 meters away. Added to that, the marvelous formation of over 3000 coral reefs and the free floating tides of the monsoons. The result of these perfect conditions have created one of the world's richest diving destinations.

Over a thousand species of fish and other underwater creatures inhabit in the Maldivian waters. The monsoon tides of the Indian Ocean create a collection of small marine creatures as well as microscopic plant cells. This in turn creates a hub for all kinds of underwater species who gather in these waters lured by abundance of food. In the Maldives, you will get to see everything, from tiny shrimps to the magnificent Manta Rays and Sharks. A careful eye will give you enough to captivate you for a life time.

The best thing, is that you need not be a professional diver to enjoy the Maldives. All resorts and safari boats give you basic to advanced training using well-monitored diving facilities of a high standard. Even the most reluctant diver can enjoy the beauty of Maldivian underwater life on a drift dive with the guidance of experienced dive instructors. A dive in a house reef is equally rewarding, all you need to do is swim a few minutes from shore. Due to the countless number of reefs found among the 26 atolls in the Maldives, all you need to do is travel 15 to 60 minutes by boat to get to a different dive spot every day.

WATER SPORTS

In a place that is more sea than land, there is no end to the fun things you do in the water. Maldivians swim for recreation, they play water polo with their friends at weekend picnics, they surf addictively. The visitor is not excepted: every single resort of the Maldives has a sports center that provides a range of watersports activities.

These centers are well equipped with masks and snorkels and boards of varying sizes, whether you want to spend the day snorkeling and meeting glances with wide-eye fish, or feeling the wind on your hair, or windsurfer or catamaran. Some centers offer courses for beginners and advance windsurfing and sailing. You could also choose to parasail, kayak, kite-surf, water-ski and jet-ski.

Surfing

Maldives is a bliss to surf-enthusiasts from all over the world, with the southwest monsoon bringing with it massive swells, especially from June to September. The sizes range from 3 – 8 feet. There are several well-known surf breaks in North and South Male' Atoll. Resorts near these breaks are perfect for surfing aficionados, as you can get the full Maldivian experience while riding the waves to your hearts content.

The lesser-known, but amazing surf breaks further away from Male' atoll can be accessed by specialized surf cruises (often referred to as surfaries) offered by cruise operators in the country.

WEDDINGS & HONEYMOONS

Weddings in the Maldives, is what dreams are made of - with private beaches, turquoise ocean backdrops, amazing sunsets, Maldivian dancers and 5 star service. We at Exciting Travel Holidays have our own wedding planning team, who have organized many functions in the Maldives – from private, intimate weddings to luxury, themed and large weddings. Contact us for a once in a lifetime wedding in the Maldives: info@exciting-travel.com

If a Honeymoon is meant to be a celebration of love in an intimate, secluded, and most importantly, beautiful setting, then the Maldives is the world's best backdrop for all these things. There are endless ways to let the magic of the islands dazzle you on your holiday as a couple. A dinner under the stars with occasional flicker of candle light to bring you back into the real world, a daring getaway to a nearby uninhabited island all by yourselves for the whole day, or just lazing around in your private bungalow watching the endless turquoise waters while you are being treated to an spa treatment in the room. Your honeymoon need not be a once in a lifetime experience either. You will relive the honeymoon over and over again, every time you come back to these magical islands.

It is as if nature plays with the colors of the setting sun just to ensure that you remember this day, this moment, and this love for the rest of your life.

SUN SIYAM OLHUVELI BEACH & SPA MALDIVES

Nestled amidst lush vegetations, Olhuvveli Beach & Spa Maldives, is where paradise seekers can forget the outside world. It is a place where mind and body can relax and spirit will feel soothed.

Olhuvveli Beach & Spa strives not only to preserve each and everyone, but to connect our guests to the rich culture and traditions that make our community of islands like no other place on earth.
